We provide brushes and pad holders that will give you the best possible performance between machine and floor. Following are descriptions of the materials and their applications.

- ProLite:** Bristles are made from light-duty polypropylene for general scrubbing when you do not want to scratch or remove finish from the floor. Recommended for use in place of red pads.
- Prolene:** Polypropylene material for medium-duty scrubbing on concrete, terrazzo and vinyl floor tile. Recommended for use in place of green or blue pads.
- Union Mix:** Medium grade natural fibers for polishing finished floors with standard-speed equipment. Recommended for use in place of white pads.
- AgLite Grit 500:** For light scrubbing when used wet; buffing or polishing when used dry on urethane coated, sealed concrete or other resilient hard surface floors. Recommended for use in place of red or white pads.
- MidGrit 240:** For general purpose scrubbing when you need a lighter action for sealed or unsealed concrete, stone, terrazzo, quarry tile and other resilient hard floor surfaces. Recommended for use in place of green or blue pads.
- MidLite Grit 180:** For general purpose scrubbing of sealed or unsealed concrete, stone, terrazzo, quarry tile and other resilient hard floor surfaces. Recommended for use in place of green or blue pads.
- Dyna Grit 80:** For aggressive, heavy-duty scrubbing or stripping of floors. Recommended for use in place of brown pads.
- Magna Grit 46:** For extreme heavy-duty scrubbing or stripping of floors. This brush has extra large diameter silicon carbide grit impregnated synthetic bristles. Recommended for use in place of black pads.
- Short Trim**
- Pad Holder:** Made with a structural foam block and center ring for correct pad centering. It has a "shower feed" design for getting solution to the floor.

BRUSHES

- 56505780 - Short Trim Pad Holder
56505195 - Pad Retainer for 56505800
56505785 - ProLite
56505784 - Prolene

Main Broom: 33018858 Prolene & Wire (STD.) (6 Double Rows)

This broom has a more aggressive cleaning action, used to pick up heavier debris.

33018857 Prolene (Optional) (6 Double Rows)

A top quality synthetic fiber. This filament is made for a wide variety of applications. Retains its stiffness when wet and resists abrasive chemicals, solvents and oils. A general purpose material offering high performance for a wide range of applications.

33018856 Nylon (Optional) (6 Double Rows)

General purpose broom that can be used for all types of light soil. High wear material so uneven surfaces do not cause excessive wear. Nylon has a high heat deflection temperature, is chemical resistant and will absorb water in wet conditions. Truly a general purpose broom.

33018859 Union Mix (Optional) (6 Double Rows)

Medium grade natural fibers.

6 Double Row

Length.....35.43" (90 cm)

Diameter.....12.20" (31 cm)

Side Broom: 56510707 Polypropylene (STD.)

The side broom function is to sweep the dirt and debris away from the curb, wall, pallet, etc. into the path of the main broom.

Diameter.....22" (56 cm)

--------------	------------

This diagram is an exploded view of a mechanical assembly, likely a pump or valve system. It features numerous numbered components (1-45) and their assembly relationships. Key parts include:

- 1**: A long horizontal shaft or pipe.
- 2**: A small pin or screw.
- 3**: A small cylindrical component.
- 4**: A small pin or screw.
- 5**: A small rectangular plate or bracket.
- 6**: A small cylindrical component.
- 7**: A small rectangular plate or bracket.
- 8**: A small cylindrical component.
- 9**: A small rectangular plate or bracket.
- 10**: A small pin or screw.
- 11**: A small rectangular plate or bracket.
- 12**: A small cylindrical component.
- 13**: A small rectangular plate or bracket.
- 14**: A long horizontal pipe or shaft.
- 15**: A small cylindrical component.
- 16**: A small rectangular plate or bracket.
- 17**: A small cylindrical component.
- 18**: A small rectangular plate or bracket.
- 19**: A small cylindrical component.
- 20**: A curved pipe or hose.
- 21**: A small rectangular plate or bracket.
- 22**: A small cylindrical component.
- 23**: A small rectangular plate or bracket.
- 24**: A small cylindrical component.
- 25**: A small rectangular plate or bracket.
- 26**: A small cylindrical component.
- 27**: A small rectangular plate or bracket.
- 28**: A small cylindrical component.
- 29**: A small rectangular plate or bracket.
- 30**: A small cylindrical component.
- 31**: A small rectangular plate or bracket.
- 32**: A small cylindrical component.
- 33**: A small rectangular plate or bracket.
- 34**: A small cylindrical component.
- 35**: A small rectangular plate or bracket.
- 36**: A small cylindrical component.
- 37**: A small rectangular plate or bracket.
- 38**: A small cylindrical component.
- 39**: A small rectangular plate or bracket.
- 40**: A small cylindrical component.
- 41**: A small rectangular plate or bracket.
- 42**: A small cylindrical component.
- 43**: A small rectangular plate or bracket.
- 44**: A small cylindrical component.
- 45**: A small rectangular plate or bracket.

The diagram shows the assembly of these components into a functional unit, with dashed lines indicating the alignment and fit of the parts.
